# Ideawake

More Effectively Innovate with Doctors and Front Line Employees

Empower employees with a voice to enhance patient care, improve outcomes and optimize operations.

Software to Accelerate Healthcare Innovation

Capture ideas throughout your organization, prioritize the best ones faster, and transform more of them into impact.

Ideate & Collaborate

Collect ideas around targeted topics from your team or entire organization. Collaborate with participants in real time.

Evaluate & Prioritize

We use employees' knowledge to surface the best ideas and collect information needed to assess impact and potential.

Implement & Measure

Decision makers can easily review business cases, further rank ideas and assign teams to make them happen.
